THE ECONOMIC BURDEN

Why Businesses Can't Afford to Ignore Gambling Harm

Gambling addiction & mental health issues are a significant threat to your bottom line, productivity, and workforce well-being.

- Employees with a gambling addiction lose over 7 hours of work time each month.
- 27% of employees have gambled at work in the last 4 weeks
- 37% of pathological gamblers report stealing from the workplace.
- Gambling-related distractions can compromise focus and lead to lapses in safety protocols, putting both people and operations at risk.

£1.77 billion

is the annual cost of harm to UK companies

UNDERSTANDING POWERS CHANGE

Empowering Change Through Lived Experience

Changing the Narrative Around Gambling Harm and Mental Health in the Workplace

WHO WE ARE

Impact-Inspire is an independent organisation driven by individuals with firsthand lived experience of gambling-related harm.

We provide comprehensive awareness, education, and prevention programmes to create safer, more supportive work environments.

Our ultimate goal is to change the narrative around gambling harm in the workplace

UNDERSTANDING POWERS CHANGE

THE HUMAN COST

A CRISIS IN MENTAL HEALTH

The annual cost of poor employee mental health to UK employers is estimated to be £51 billion.

Human Cost Statistics:

- Individuals with a gambling disorder are at a risk of suicide up to 10 times higher than the general population.
- Gambling disorder is linked to stress, anxiety, depression, and suicidal ideation.
- 89% of employees with gambling-related mental health problems report a negative impact on their working life.
